IF IT'S OCTOBER IT'S AUTÓTECHNIKA

AUTÓTECHNIKA-AUTÓDIGA

exhibition in Budapest's HUNGEXPO!

The most significant forum of the Hungarian automotive service and maintenance industry will open its gates for the 26th time in 2017. The players of the automotive repair industry can view the spectrum of diagnostic services, garage equipment and automobile parts under the same roof. Along with the concurrently held AUTOMOTIVE HUNGARY event, AUTÓTECHNIKA-AUTÓDIGA exhibition offers an opportunity for the players of the Hungarian supply, maintenance and garage industry as well as the automotive-related education sector to showcase their products and activities. Compared to previous years, the four-day event has an increased workshop-like function with enhanced professional and thematic content to offer to visitors. It creates an excellent chance for them to get an insight into the latest novelties and developments in relation with the automotive industry.

15 May, 2017**

PROGRAMMES

True to our traditions, the high-quality complementary professional events are built on the themes of **EDUCATION, KNOWLEDGE, FAIR.**

EDUCATION

FEATURED THEME DAY: 18 OCTOBER (WEDNESDAY) A MEETING OF PROFESSIONALS AND YOUTH VOCATIONAL TRAINING - FURTHER EDUCATION

The opening day of the exhibition is primarily for students who are about to choose a career path or already participate in vocational training but the events and presentations also target visitors interested in adult education.

Since students and potential adult training participants typically need to look into their vocational education options and finalize their plans by the end of the year, we assist them in assessing the available offers already in mid-October by viewing the presentations and the education institutions participating in the event with regard to the considerably wide spectrum of automotive industry training opportunities. They can get an insight into the branches of the automotive profession as well as the companies involved in the industry, and they can freely consult with the players of the economic and educational sphere. The vocational teachers' forum will discuss the situation of vocational education. "Forward-looking" professional presentations will offer a preliminary peek into the future by giving an insight into the most up-to-date technical solutions. The first day is also for conscious customers who come to the event with specific plans and questions.

KNOWLEDGE

**FEATURED THEME DAY:
19-20 OCTOBER (THURSDAY - FRIDAY)
TOMORROW IS NEAR...**

AUTÓTECHNIKA-AUTÓDIGA exhibition offers countless professional presentations in the theme of KNOWLEDGE, which enable participants to meet the technical demands posed by modern automotive industry. Similarly to last year, we again devote two days to provide up-to-date knowledge in the form of presentations covering the entire spectrum of car repair and maintenance services in order to prepare attendants of a mind to gain advantage over their competitors for tomorrow's challenges. **Regulatory changes - need to upgrade equipment!** This fair is the last chance for professionals to view the equipment on offer for the purposes of vehicle inspection before the regulation on uniform European technical inspections are adopted.

FAIR

**FEATURED THEME DAY:
21 OCTOBER (SATURDAY)
ALL PROFESSIONALS IN ONE PLACE**

AUTÓTECHNIKA-AUTÓDIGA exhibition is deservedly called a celebration of the Hungarian car repair and maintenance sector since it offers a unique opportunity to revitalize old professional relations and establish new contacts as well. In addition to the wide range of exhibitors, the fourth, closing day also enables business representatives to attend presentations, conferences and personal meetings to broaden their scope on the business-related and other environment of their operation so that they could more effectively develop their market position in the automotive maintenance segment.

AUTÓTECHNIKA (CAR TECHNOLOGY) PLAYGROUND

Contests, demonstrations, skill tests organized for youth as well as the "eternal children".
