

SAJAM U BUDIMPEŠTI

BOAT SHOW IN BUDAPEST

Zanimalo nas je kako izgleda nautički sajam u zemlji, koja nema more, ali ima veoma razvijen rečni saobraćaj. Naši susedi su na sebi svojstven način organizovali ovogodišnji Budapest Boat Show, a po prvi put je spojen sa još jednim događajem - Budapest Motor Festival-om, kako bi celokupan doživljaj bio još upečatljiviji. Naravno, mi smo se interesovali za nautičke izlagače, bilo nam je zanimljivo uporediti gde je Mađarska u nautičkom lancu, u odnosu na Evropu, ali i naš region.

We were curious to visit a boat show in the country that also has no access to the sea, but has a well-developed river traffic. Our neighbors organized this year's Budapest Boat Show in their own specific way, and for the first time this show was merged with another event - Budapest Motor Festival, making the entire experience even more striking. Of course, we were interested in the nautical exhibitors, and it was interesting to establish where Hungary is in the nautical chain in relation to the rest of Europe, but also to our region.

Za ljubitelje kvalitetnih i brzih glisera predstavilo se nekoliko poznatih svetskih kuća, između ostalog: Sea Ray i Bayliner, dok ni za jedrilčare nije zaostajala ponuda: Hanse, Jeanneau, Bavaria upotrebile su „sailing“ program svojim jedricama. Od svetskih premijera izdajamo model mađarske kompanije Flaar: RIB čamac sa oznakom 5.3, kao i Flaar 37.

For enthusiasts of high-quality and fast boats, there were several world-famous shipyards that showcased their products, including Sea Ray and Bayliner, while those in favour of sailing were equally treated with Hanse, Jeanneau, and Bavaria, which all contributed to the sailing part of the exhibition with their sailboats. World premieres that took place in Budapest included a model built by Hungarian company Flaar: a RIB boat labelled 5.3 and FLAAR 37.

Flaar 5.3 RIB čamac predstavlja alternativu, kao pratnja većim brodovima sa dosta dodatka i odličnim odnosom cene i performansi. Od ostalih izlagača ističemo dobru ponudu sportskih i rekreativnih plovila, kajaka, kanua i rafting čamaca sa kompletnom opremom za sigurnu plovidbu i uživanje na mirnim i divljim vodama.

Na sajmu je bila izložena sva moguća sportska oprema i prateći elementi vodećih svetskih firmi: fitness, ronilačka, oprema za sportove na vodi (čamci, kajaci, gliseri, skuteri i daske za: surfovanje, „kite“, „wakeboarding“). Za dobru i sigurnu brzinu pobrinuli su se renomirani brendovi brodskih i vanbrodskih motora.

Prema rečima organizatora sajam je ispunio očekivanja. Broj posetilaca i samih izlagača je povećan u odnosu na prošlu godinu što uliva optimizam da će u budućnosti ovaj sajam biti bolji, bogatiji i sadržajni.

Flaar 5.3 RIB boat is an alternative, an escort to larger vessels, with a lot of additional equipment and excellent price to performance ratio. Among the other exhibitors, it is worth mentioning a good range of sporting and recreational boats, kayaks, canoes and rafting boats with full equipment for safe sailing and enjoying calm and wild waters alike.

The boat show displayed all possible sports equipment and accessories produced by leading companies of the industry: fitness, diving, and water sports equipment (boats, kayaks, speedboats, jet skis, as well as boards for surfing, kite, and wakeboarding). For a good and safe speed, the offer was provided by renowned brands of inboard and outboard engines.

According to the organizers, the boat show met all their expectations. Number of both visitors and the exhibitors has increased compared to last year, which is optimistic and promises that in the future this event will be even bigger and better.
