HUNGEXPO

– the joint success story

As a manager of a successful business, there are two kinds of welcome addresses you can give. You can be modest or proud about your achievements; stressing that they wouldn't have been possible without your colleagues and partners. I chose the latter of these two approaches.

HUNGEXPO Zrt. has been a main fixture and leading player of the Central-Eastern European regional exhibition hosting market for nearly fifty years. We provide complex marketing services for exhibitors and events promoters alike. Our personalized, innovative solutions provide our partners with advantages which couldn't be gained in any other way.

Thanks to decades' worth of efforts, we've managed to make Budapest the home and HUNGEXPO the host of the significant exhibitions of the region, including construction industry, landscaping, agricultural, food industry and car industry professional musters, leading angling-hunting and tourism fairs, displays for boating and motor enthusiasts as well as popular home making events for the general public. For 11 years, we've been working through our French parent company, putting its knowledge and experience accumulated in an international environment to good use.

This year, HUNGEXPO is hosting a total of 16 different exhibitions. Our old partners are well aware of this fact, yet it's still important to stress that our firm's modern infrastructure and wide range of services offer solutions for exhibitions, B2B professional fairs and exclusive meetings or even hosting ten thousand-strong congresses and major corporate events. Thanks to our wide range of venues, flexible services and continuous innovations, we are capable of winning over a growing number of partners on the efficiency of our long-term cooperation.

HUNGEXPO's success is our partners' success. Thus, when I think of my expectations for 2016, I'm thinking of the expectations of all of us. In the name of my colleagues and myself, I must say that the coming year will be truly memorable for all of us.
