

Dear Partner!

In this edition of our monthly newsletter we would like to inform you about the largest exhibition bunch of home-building and construction in the CEE region and we would like to present you the last up-coming exhibition of the semester and also to give some details about our events of the second half of the year.

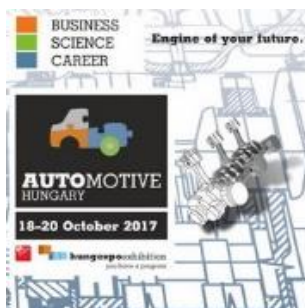

Between April 5 and 9 the 36th CONSTRUMA was held. After last year's record, the number of visitors grew by nearly 10 percent this year, so the event was visited by nearly 60,000 people. In comparison with the past few years, the number of exhibitors also increased, more than 700 exhibitors from 20 countries have participated at the Construma, and most of them have already decided that they will return next year. We can say that this year's professional forums and conferences organized parallel at the Construma were more successful than ever before, and it seems that the whole building industry is developing.. At the opening ceremony, András Tállai, the deputy minister of the Ministry of National Economy, said that the building industry is growing dynamically, and it gives a reason for optimism that the volume of new contracts grew by 212 percent in January compared with the same period of last year, parallel the construction

of new houses had already grown significantly, almost 10.000 apartments were built last year. This year and in the next few years we expect a significant growth in the construction of new houses. This year CONSTRUMA's partner country was India. The continent size country were present in two pavilions with more than 40 exhibitors on more than 300 square meters. Beside India, Austria, the Czech Republic, China and Taiwan also presented their country's products and innovations on collective booths. Both exhibitors and visitors have been very satisfied with the exhibition, so we can definitely say that we had a very successful exhibition. Read more: <http://construma.hu/en>

Between May 9 and 12 The MACH-TECH and the INDUSTRY DAYS exhibitions will welcome the guests with a full house. Nearly 400 exhibitors from 14 countries - including world brands, market leaders, small and medium-sized companies - will appear. At one place and at the same time almost all sectors of the industries will be present in order to give the exhibitors and visitors first-hand information about the trends in the industry and therefore to show the advantages of the synergies between the industries. INDUSTRY 4.0 is also a key theme at this event in 2017, for this reason the Ministry of National Economy - Industry 4.0 National Technology Platform is organizing an all-day conference entitled "Industry 4.0 Technologies - Application, Adaptation and Ability". In addition to the conference programs, visitors can gain knowledge about future manufacturing processes. One of the elements of this is robotics, and

this year's main attraction is the world-famous FANUC industrial robot, that visitors will be able to see in Hungary for the first time at the exhibition. Parallel with the exhibition the II. International Business Breakfast will be held, in addition of summarizing the events of the first semester we are going to present next year's calendar with our events. We will also talk about the benefits of a participation of a foreign company at the largest exhibitions in Hungary. Read more: <http://iparnapjai.hu/en>

Between October 18 and 21 the 5th AUTOMOTIVE HUNGARY and the 26th AUTÓTECHNIKA exhibitions will provide a complex picture of the domestic and regional automotive suppliers, the trends in the automotive industry's backstage, the components of manufacturing and software development, innovation, investment and support opportunities, and the supply of professionals.

For this year's exhibition the interest rate is already high but our sales staff are still waiting for further applications. Read more: <http://automotivexpo.hu/en> <http://autotechnika.hungexpo.hu/en>

HUNGEXPO – Budapest also hosts national and international events. Let it be a congress, a gala dinner or an exhibition, HUNGEXPO offers not only the venue, but also several additional services. Thanks to the unique advantages, HUNGEXPO has been chosen as a venue for several large, international events such as the ISF World Seed Congress in May or the World of Coffee exhibition in June. Beside the huge international events several domestic programs are hosted also at HUNGEXPO. Read more: <http://event.hungexpo.hu/en>

In case of further question we are happily at your disposal!

Kind Regards,

Klara Tihanyi

Business Development Director

Ivett Raunicker
